The Chair of Economic Theory, especially Macroeconomics at the Institute of Economics at the University of Freiburg is looking to fill a part-time position (**50%**) of a

## Research Assistant

Salary and benefits are according to the TV-L E13 public service pay grade. The position is available from **October 1, 2022**, for an initial period of one year, after which an extension is possible. The position may then be upgraded to 75% TV-L E13.

We are looking for a candidate holding or pursuing a Ph.D. in economics who

- has a strong interest in macroeconomic models and policy issues
- holds (or will shortly complete) an excellent degree (M.Sc.) in economics or related fields
- has very good skills in written and spoken English
- has the ability to work in a team and on research projects independently and diligently.

Your general responsibility will be to support our teaching and research in the field of theoretical macroeconomics. Our current research projects include

- model-based studies of macroeconomic issues using dynamic general equilibrium theory
- theoretical analysis and numerical simulation of economic policy
- large scale macroeconomic models of climate change and optimal climate policy
- studies of monetary policy, financial markets, and the emergence of asset bubbles.
